

## EvueMe Selection Bot Strikes MOU With The National HRD Network

15 April, 2019

With increasing levels of computational power and an ocean of available data, algorithms and artificial intelligence (AI), today, almost every company is undergoing a digital transformation. Having seen such tools boosting efficiencies across disciplines such as marketing and finance, EvueMe Selection Bot, is enabling organizations to embrace the Digital movement with cutting edge solutions in the recruitment and assessments space.

EvueMe Selection Bot, a national winner as an innovative startup of India in the Economic Times Power of Ideas 2017, founded by ex-corporate veterans & DCE/IIM-B alumni, today announced signing a Strategic Partnership Memorandum of Understanding (MOU) with The National HRD Network (NHRDN), a Global Centre for Grooming Leaders and the National Apex body of professionals committed to promoting the People Development movement in India.

As per the MoU, The National HRD Network will be launching a new Product named “NHRDN Interview Bot” which will be a “Robot Interviewer on Demand” in strategic partnership with EvueMe Selection Bot.

Rupak Agarwal, Founder & CEO – EvueMe Selection Bot said “Industry Revolution 4.0 is the age of automation. Today’s workforce is increasingly being dominated by millennials who are leading the change to digitization and “Open Talent Economy” enabling rapid cycle way of doing business. There is a war for talent as every organization moves up its Digital Savviness Index. It is time to embrace this Digital age of “Insta Hiring” – Anytime, Anywhere Interviews with simultaneous parallel assessments resulting in “Selection in Months” reducing to “Selection in Hours”

The National HRD Network and EvueMe Selection Bot will work in collaboration to use cutting-edge technology to enable organizations move up the Digital Adoption curve in the HR Space and simplify the entire
